SUMMER STORAGE GUIDELINES AND INFO

- All boxes/plastic bins going into storage must have first and last name, phone number and student ID DIRECTLY ON THE ITEM, no label.
- For all other items, labels should go on the sides, never the top or bottom. *We suggest two labels per item.*
- If there is an unlabeled item, we **will not** accept it.
- All boxes, storage containers, plastic totes and bins must be closed and securely taped with no personal items being exposed.
- Any items that can be boxed, must be boxed, or placed into a plastic bin, tote or storage bag. This means no loose items such as, tennis shoes, lamps, open faced drawers, etc.
- Items that are too large to fit into a box or storage container, such as, mini-fridges, chairs, TV's and furniture must be properly labeled. *Rugs and mattress pads must be rolled.
- Individual items stored outside of boxes and containers will be priced as their own item. Such as, brooms and Swiffer's. *For this reason, we do not suggest storing low cost over-the-door mirrors.*
- Any item outside of a box will be stored as is. We do not wrap these items in bubble wrap or cover them. *We suggest bubble wrapping TV's and covering mattresses/mattress toppers with wrap. You can purchase these supplies from Amazon.*

These two types can have items inside as long as it does not exceed 50lbs.	This type must be empty. You CANNOT fill with items.	These types CANNOT be stacked IF they have items inside. ***We allow them to be stacked 3 high ONLY if they are EMPTY.***
